Learn About Us

Green Star Technologies is a Service-Disabled Veteran-Owned Small Business (SDVOSB) based in Ohio. We are Master System Integrators with over 10 years of experience in the Building Automation System (BAS) industry, and open, standards-based solutions are our area of expertise. Through our joint venture, Green Star Enterprises JV, with Enterprise Controls Group, we support large clients with top system integrators, project managers, and engineers.

Core Competencies

- System Integration (multiple platforms)
- Specializing in the Tridium Niagara framework
- Data Analysis & Analytics
- Building Commissioning
- Energy Management
- Graphical User Interface (GUI)

Business Model

- Over 10 years of experience
- Proven Leadership
- Industry-Leading Technology
- Customer-Driven Results

Differentiators

- Veteran-led team
- Tridium Niagara specialists
- Joint venture (Green Star Enterprises JV) with Enterprise Controls Group for large-scale delivery
- Open, standards-based, vendor-neutral solutions
- Experience meeting stringent healthcare and federal requirements

Past Performance

Louis Stokes Cleveland VAMC (Federal)

- Tridium Niagara software installation, upgrades and support
- Enterprise supervisor architecture and station standardization
- Multi-vendor integration (BACnet, LON, Modbus) into a single front end
- Cybersecurity hardening aligned with federal IT requirements

United States Army Reserve Centers (Federal)

- Site readiness assessments
- Tridium Niagara hardware and software upgrades
- HVAC control replacement
- Develop standard data model
- Reflow user experience implementation

Large Healthcare System

- Large-scale Tridium Niagara integration and graphics implementation under stringent standards
- Enterprise graphics, naming and tagging standards
- Complex multi-site architecture for critical environments
- Analytics and fault detection
